Profile

Skilled software developer and team leader with industry experience in banking, manufacturing, sales, broadcast entertainment, telecom, insurance, medical billing, government. Experienced in developing software for very technical applications: communication drivers, print drivers, embedded systems, realtime systems.
Passion to work in technology and software to create solutions for organizations.

Professional Experience

LEAD DEVELOPER
Logical Software Solutions, 2017 to present

Designed and built web applications using Angular 9 - 12, Firebase (all core services), Bootstrap 5.

Built applications utilizing a subscription model using Stripe billing. Applications integrate with Login With Amazon, Amazon Market Web Service and Amazon Advertising API. Also use MySQL db hosted on AWS. Backend server processes written in TS running in Node.js on Amazon Lightsail - Ubuntu

AMZORGANIZER.APP
Web application that helps Amazon sellers optimize their product listings and analyze sales & advertising performance. Built in Angular 11+ with Firebase backend. System integrations included Amazon MWS, Amazon Advertising API, Stripe payments, Amazon MySQL, Firestore.

WITNESSTOOLBOX
Mobile app for Android, IOS, Mac that is used for Christian witnessing. Built using Angular 12 & IONIC framework. Firebase used as backend.

TECHNICAL PROJECT MANAGER
Turner Broadcasting, 2013 to 2016

Lead a development team serving multiple client areas. Team was composed of US and India based developers and QA. Utilized KANBAN to plan work. Was also responsible for budget planning, architectural oversight. Technologies used were Angular, ASP.NET, SQL Server, .NET WPF, C#.

SR DEVELOPER
Turner Broadcasting, 2005 to 2013
Designed and built multiple client server applications using .Net C#, Java. Also built multiple web apps with ASP.NET. SQL server was the primary db.

Previous experience includes: AT&T, Coca-Cola, GA Power, ADP Tax Services, Ernst & Young, Bellsouth, Home Depot, GMAC, etc.

EXPERIENCED WITH THESE TECHNOLOGIES
Languages and tools
Typescript - 8 years, C# - 15 years, .Net, Javascript, Typescript, JQuery, SQL Server 2000, Crystal Reports – 6 years, Hibernate, Active Reports, Compact Framework, WinCE, ASP.Net, ADO.NET, , Java – 6 years, XML, SOAP, JDBC, UML, PowerTier, Orion Server, JRun, Servlets, Oracle – 13 years, Intermedia, C, C++ - 9 years, Visual Basic 4 & 5 – 4 years, ISAPI, JSuite, SWING, JBuilder, JFC, CORBA t,raining, 68000 Assembly, Pascal, Object Pascal, Hypertalk. MacApp, Object Windows Library, Think Class Library. Think C & Pascal, MPW C++, Borland C++, Visual C++, MFC – 4years, Angular 1 & 2, node.js, GIT, Amazon Web Services, Firebase

Operating Systems
Windows, Mac OS, Linux, DOS, Stratus VOS

Databases
Oracle, SQL Server, MYSQL, Firestore, Mongo DB, Dynamo DB, Omnis, Teradata, MS Access
